

**This month the Intermountain Region APIC Chapter is presenting an on-demand presentation on**

**‘COVID-19: Vaccine and Variants’**

**Presented by Sky R. Blue, MD**

Please follow this [link](https://www.apicintermountain123.com/agendas-and-minutes.html) to access the recording, which is also available on the Intermountain APIC Homepage: <https://www.apicintermountain123.com/agendas-and-minutes.html> . Please note that audio starts at 3 minutes into presentation.

You can view this at your convenience and learn from Dr. Blue on COVID-19 Vaccine, variants and more. We will not be having a Webex this month for the education session. *CME or continuing education credits will not be provided via the Intermountain Chapter at this time for this presentation.*

If you would like to add comments in regards to this presentation, please enter those in the MEMCHAP/Intermountain Region MyAPIC community. We will have an open discussion thread in regards to this presentation, just follow this [link](#).

If you are not familiar with the MEMCHAP/Intermountain Region community, it allows you to ask questions and connect to those within our chapter and geographical area. It is a great community to join!

Sky Blue is board certified in Infectious Diseases. His clinical interests focus on general infectious diseases and HIV. He earned his bachelor’s and medical degrees from the University of Iowa. He completed his internal medicine residency at Good Samaritan Regional Medical Center and Carl T. Hayden VA Medical Center in Phoenix, Arizona and his infectious diseases fellowship at the University of Utah. In addition to working at Sawtooth Epidemiology & Infectious Disease, he is also the Medical Director of the HIV Clinic through the Family Practice Residency of Idaho.
